

# ALTA — Next Generation Crypto Trading & Learning Platform

Project Overview  
Version 1.0 | June 2026

## Executive Summary

ALTA is an ambitious next-generation platform that aims to surpass TradingView in the cryptocurrency space by combining powerful real-time charting, news aggregation, paper trading, and comprehensive trading education into one beautifully designed application.

Our mission is to make professional-grade crypto trading accessible, educational, and visually stunning for beginners and experienced traders alike.

## Problem

- Existing platforms (TradingView, CoinMarketCap, DexScreener) are fragmented.
- New traders lack integrated education and safe practice environments.
- Many tools have outdated or cluttered interfaces.

## Solution

ALTA provides an all-in-one beautiful ecosystem:

- Superior modern UI/UX with focus on visual excellence
- Real-time advanced charting
- Integrated demo (paper) trading accounts
- Structured learning academy with progress tracking
- News aggregator and sentiment overview
- Portfolio tracker with wallet connection

## Unique Value Proposition

- Best-in-class Visual Design — modern, dark, premium feel
- Deep integration of Education + Practice directly in the trading interface
- Future Web3 features (on-chain analytics, copy-trading, token economy)
- Freemium model with strong community focus

## Target Audience

- Crypto beginners wanting to learn trading
- Intermediate and advanced traders
- DeFi users and portfolio managers

## MVP Features

1. Landing page & authentication
2. Real-time multi-symbol charts (Lightweight Charts)
3. Top coins list with search
4. News aggregator
5. Paper trading simulator
6. Basic education section (articles + quizzes)
7. Portfolio tracker

## Technology Stack

- Frontend: Next.js 15, TypeScript, Tailwind CSS, shadcn/ui
- Charts: TradingView Lightweight Charts
- Database & Auth: Supabase (free tier)
- APIs: CoinGecko, CCXT
- Hosting: Vercel + Supabase

## Monetization

- Freemium (Pro subscription for advanced features)
- Affiliate partnerships with exchanges
- Sponsored educational content
- Future token/utility model

## Roadmap

- Q3 2026: MVP Launch
- Q4 2026: Wallet integration + advanced education
- 2027: AI analytics, community features, mobile app

## Team

Bootstrapped by passionate founder with strong design focus. Open to co-founders and contributors.
